

Flymo Contour 500E

3 in 1 electric grass trimmer, offering trimming, edging and shrubbing modes for under benches and difficult to access places. Featuring a unique edging wheel making edging easy and adjustable shaft for added comfort.

The Flymo Contour 500E is a powerful, lightweight, easy to use 3 in 1 electric grass trimmer that offers trimming, edging and shrubbing facility to cut grass in awkward areas like under garden benches easily. Finding a comfortable working position with the Contour 500E is easy. Its adjustable shaft allows you to change your working height to suit your preferred position, while its adjustable handle lets you find extra comfort when working. This telescopic grass trimmer comes with a retractable plant guard that helps protect plants and shrubs whilst trimming, while preserving your cutting line. This trimmer has a twin automatic feed cutting system which allows you to cut tougher grass, feeding you additional cutting line when you need it. Replacement spool and line for this electric grass trimmer can be purchased on the Official Flymo Shop. Search for the part number: FLY021.
