

Flymo Hover Vac 280

An entry level hover mower that collects grass as it cuts. Ideal for people with smaller gardens or new to cutting the lawn.

The Flymo Hover Vac 280 is a lightweight lawnmower that is quick and easy to use. This lightweight hover mower glides across the lawn making mowing your grass quick and easy, and comes fully assembled out of the box.

Powered by a 1300 watt motor, the Flymo Hover Vac 280 will cut your lawn with ease, thanks to the 28cm metal cutting blade. Having a lawnmower with a metal cutting blade, means your grass gets a really clean and tidy cut. A clean cut across the grass blade prevents fraying, which can lead to a dried out and yellow lawn.

The Hover Vac 280 cuts and collects the grass as it goes. The 20 litre grass box is easy to access from the top of the hover mower and can be quickly and easily emptied.

The compact, fold down design of this lightweight lawnmower makes storing this hover mower easy too. The handles simply fold over the top of the mower ensuring that it can be stored in the corner of the shed or garage.

Collects and Compacts
Collects and compacts more grass for less emptying

Easy to Empty
Grass Collection Box
Easy to empty grass collection box.

Hover
Floats on a cushion of air.

Easy to Store
Folds away for neat and tidy storage.
